

PORT NOLA
THE PORT OF NEW ORLEANS

CARGO

**AT THE PORT OF NEW ORLEANS,
OUR CONNECTIONS RUN DEEP.**

Cargo Handling Capabilities

The Port of New Orleans is a modern multimodal gateway connecting global markets to and from the U.S. and Canada. Our competitive edge comes from our ability to deliver seamless, integrated logistics solutions between rail, river and road. Port NOLA is a diverse general cargo port, handling containerized cargo such as apparel, furniture, fresh and frozen food products, consumer merchandise; and breakbulk cargo such as steel, metals, rubber, wood and paper.

Port NOLA has had strong containerized cargo growth for several years and has surpassed 600,000 TEUs annually. While the container business has grown significantly in recent years, breakbulk and heavy-lift remain a strong part of the Port's cargo mix and focus.

Containers:

- Modern container facilities with **840,000 annual TEU capacity**.
- Ability to handle **vessels up to 10,000 TEUs** in size.
- **Six** container gantry cranes.
- **Four new** 100-foot gauge gantry cranes under construction.
- **3,000 feet** of linear berth space able to accommodate vessels with 45 feet of draft.
- Ability to transload bulk from container to barge.

- Twice-weekly **container-on-barge** service operated by SEACOR AMH.
- Weekly **direct services** to and from Asia, Europe, the Mediterranean, South America and Central America.
- **140,000-square-foot** dockside cold storage facility, the Henry Clay Avenue Refrigerated Terminal, and planned cold storage expansion will double capacity.
- New Orleans Public Belt Railroad provides the Port, Class I partners and shippers **on-dock intermodal advantage** with regular intermodal service provided by CN and KCS connecting the Port to key inland markets.

Breakbulk:

- **Global** ocean carrier services.
- **13,511 feet** of berthing space available at six terminals ideally suited for a broad spectrum of breakbulk cargo including heavylift/project cargo and temperature-sensitive cargo.
- **1.6 million square feet** of transit shed area for the temporary storage of breakbulk cargo.
- Discharge directly to/from barge.
- Certified by the London Metal Exchange to handle and store non-ferrous metals traded on the Exchange.

Effective 04/2020
