PORT NOLA
THE PORT OF NEW ORLEANS

WHAT IS A PORT?

A port is a place where cargo is loaded and unloaded. At Port NOLA, we connect Louisiana to the world in many ways – by river, rail, and roads. Port NOLA is also a popular cruise port.

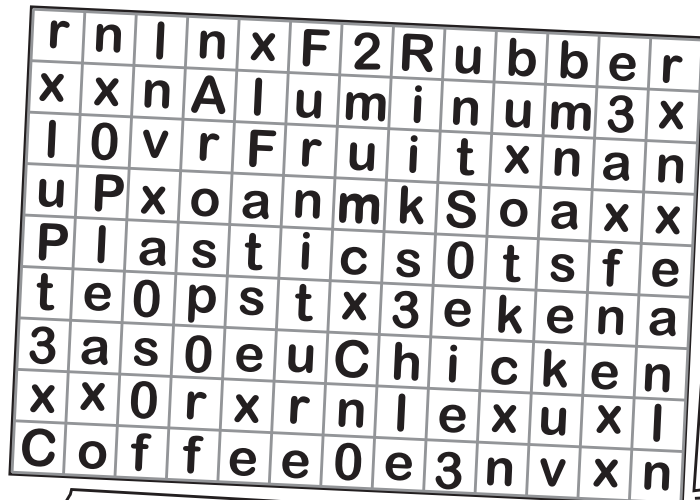

MANY TYPES OF CARGO MOVE THROUGH PORT NOLA

Many of the items you use every day either came through a port or were made with materials that did.

Some of the goods we move most often:

|--------|----------|-----------|
| Rubber | Aluminum | Fruit |
| Coffee | Plastics | Furniture |
| Steel | Chicken | Paper |

Can you find them all?

MOVING CARGO WITH THE ENVIRONMENT IN MIND

Port NOLA cares about the air we breathe and the water we drink. We look for ways to help take care of the earth. Moving cargo by barge on the river and by trucks with cleaner engines makes a difference.

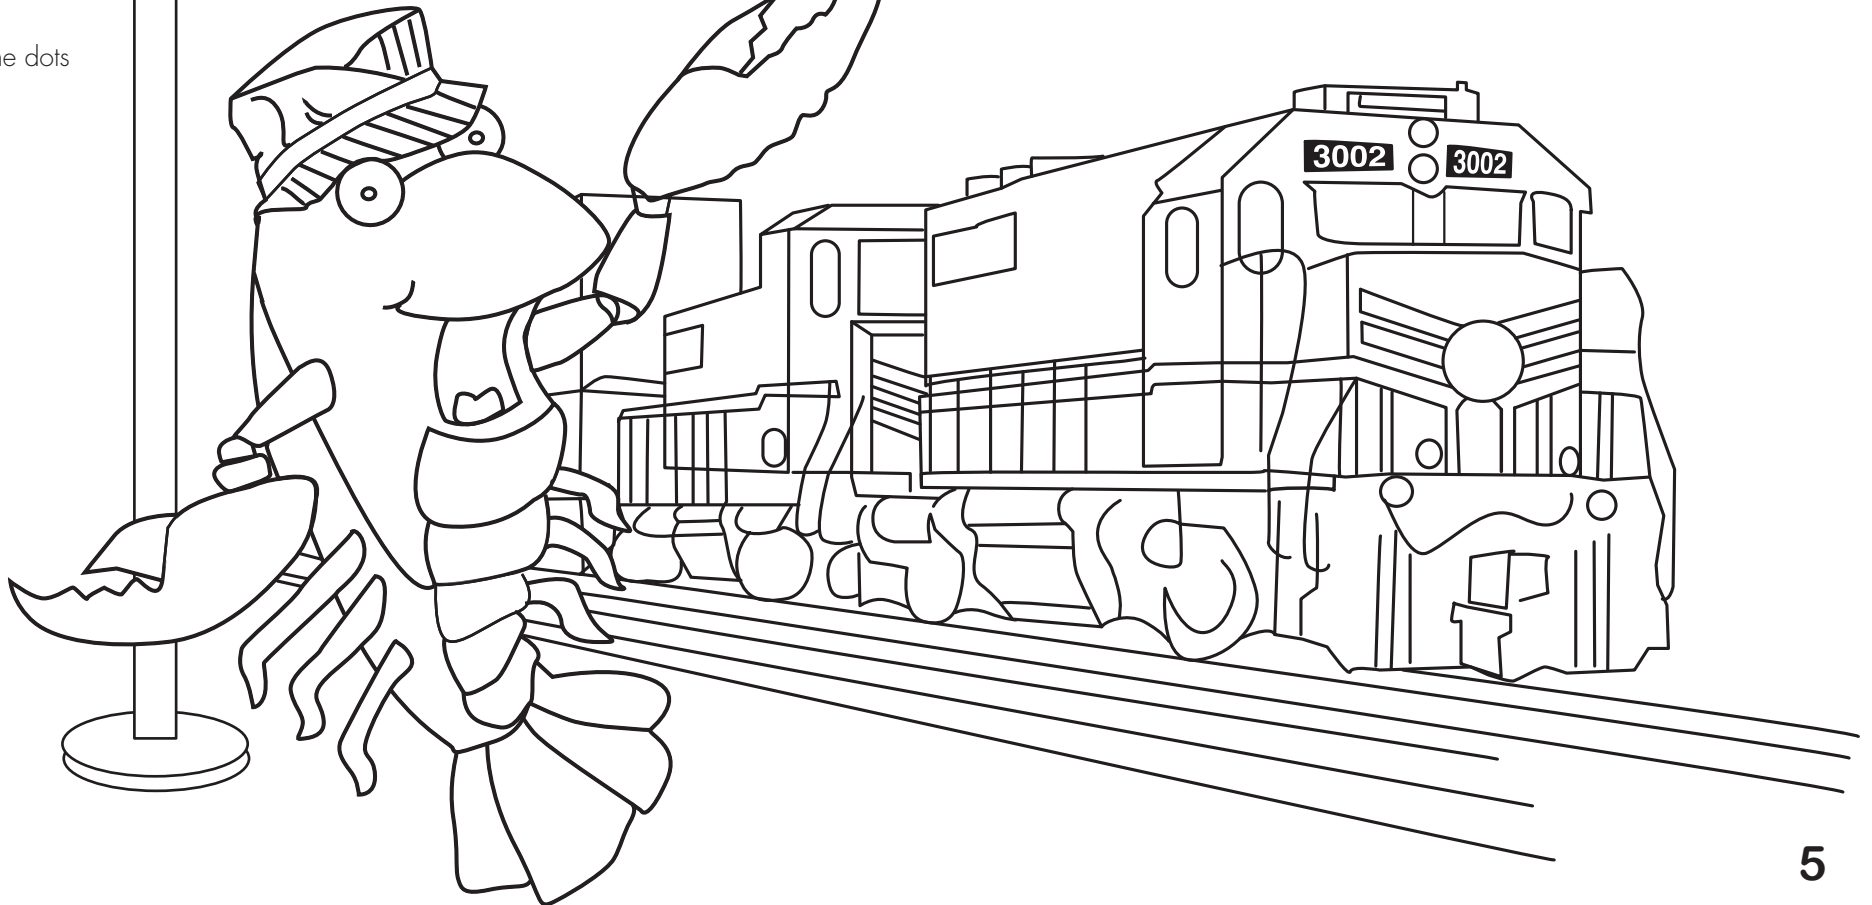

SAFETY FIRST AT NEW ORLEANS PUBLIC BELT RAILROAD

Port NOLA has its own railroad that helps move cargo to cities and towns in the United States and Canada. Tchoup the Safety Crawfish wants to remind you not to play on the railroad tracks and always pay attention to crossing signals.

BUSINESSES RENT SPACE FROM THE PORT

Port NOLA earns money by collecting rent from businesses located on Port property. Tourists love to visit Mardi Gras World, one of the Port's tenants, where floats are made for Mardi Gras parades. Thousands of tons of your Mardi Gras favorites are imported through the Port every year.
